

ES FANGAR COLLECTION

MICE PLANNING DOSSIER

Corporate events · Mallorca

Prepared by Isle of Mallorca

One private estate. An entire programme.

Corporate programmes at Es Fangar begin with the purpose of the gathering, not a fixed package. Leadership teams can stay within the estate, planners can shape separate working and hosting moments, and the covered arena provides a verified large-format option. Isle of Mallorca coordinates the brief, estate access and the formal proposal with the relevant Es Fangar teams.

PLANNING FACTS

Approximately 1,000 private hectares · Three licensed villas · Five Main House suites · Covered arena up to 500 seated / 1,000 reception · 56 hectares of vineyard

NEXT STEP

Planning overview only. Availability, access, capacity and technical details remain subject to a formal estate proposal.

Scale when required. Precision at every size.

The covered arena is Es Fangar’s verified large-format venue. Its final capacity depends on stage, production, catering, circulation and safety plans; the published figures are therefore maximum planning parameters, not automatic room guarantees. For all other estate spaces, the project team confirms capacity, access, power, acoustics, weather contingencies and supplier requirements in the proposal.

Covered arena	Covered arena	Covered arena
80 × 40 m	Up to 500 seated	Up to 1,000 reception

Published capacities are maximum planning parameters, subject to approved layout, production, catering, circulation and safety plans.

Make the estate your private address in Mallorca

A private buy-out creates continuity between accommodation, meetings and hospitality. The licensed residences have distinct identities: the Arabic House is legally offered as Villa Tres Suites, Villa Mallorquina retains its Mallorcan character, and The Lodge is legally offered as Villa de Piedra Natural / Casa de Piedra. The Main House contributes five separate suites and principal shared spaces. Availability, included areas and operating boundaries are confirmed in the formal proposal.

PRIVATE STAYS

Three Balearic-licensed holiday villas

PRIVATE STAYS

Five separate suites in the Main House

Space for decisions that need distance

Es Fangar allows an executive retreat to move naturally between concentrated sessions, informal conversations, private meals and time outdoors without repeatedly transferring the group. The three licensed villas support residential stays, while the Main House and additional historic settings can be considered within a coordinated estate programme. Every itinerary is designed around the team's working cadence, privacy requirements and hosting expectations.

Corporate hospitality rooted in the vineyard

Winery-led hospitality can add a strong sense of place to a corporate gathering. Depending on the confirmed brief and availability, the proposal may consider hosted wine moments and bodega settings as part of the wider estate programme. The wines are produced under DO Pla i Llevant, and the winery is certified organic, vegan and vegetarian.

PLANNING FACTS

56 hectares of vineyard

One estate, many ways to reconnect

Executive retreats

Space for decisions that need distance

Es Fangar allows an executive retreat to move naturally between concentrated sessions, informal conversations, private meals and time outdoors without repeatedly transferring the group. The three licensed villas support residential stays, while the Main House and additional historic settings can be considered within a coordinated estate programme. Every itinerary is designed around the team's working cadence, privacy requirements and hosting expectations.

Incentives and offsites

One estate, many ways to reconnect

Es Fangar is suited to incentive programmes that value depth over constant movement. A day can combine business sessions, hosted estate moments and considered hospitality while keeping the group within one private environment. Programmes are built to the brief; no activity, route or access area is assumed until confirmed by the estate.

Brand events and production

A private Mediterranean world for ambitious creative work

Es Fangar offers visual range without the fragmentation of multiple locations. The estate can support brand gatherings, launches, editorial production and filmed content subject to a confirmed location brief. Access, image rights, drones, vehicles, animals, lighting, noise, crew movement and restoration requirements are agreed before production.

Winery events

Corporate hospitality rooted in the vineyard

Winery-led hospitality can add a strong sense of place to a corporate gathering. Depending on the confirmed brief and availability, the proposal may consider hosted wine moments and bodega settings as part of the wider estate programme. The wines are produced under DO Pla i Llevant, and the winery is certified organic, vegan and vegetarian.

Es Fangar brings executive stays, large-format gatherings, hosted wine, equestrian architecture and a thousand hectares of private Mallorca into one proposal-led setting.
